Recipe \_\_\_\_\_ Kit # \_\_\_\_\_

Absent \_\_\_\_\_ Date of Lab \_\_\_\_\_

| Ingredient | Measurement | Price  |
|------------|-------------|--------|
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             |        |
|            |             | Total: |

1. Which ingredients did you have to simplify the original cost, to get the cost of YOUR ingredient?
2. What is one ingredient change you could make to make this recipe YOUR OWN?
3. Were there any problems with the lab if so, what?
